Accolite Interview Questions

- 1 Can we call private method in class A from class B?
- 2 Fill data inside TextBox other than sendKeys()
- 3 How to get Screenshot on Test Failure?
- 4 int vs Integer
- 5 Abstract class vs Interface
- 6 Selenium WebDriver - API
- 7 What is Test Plan
- 8 Can we Overload and Override Static methods? Yes/No, why?
- 9 How can we select multiple values from dropdown?
- 10 Java and Selenium Exceptions
- 11 Adhoc testing, System testing, Compatibility testing
- 12 Regression vs Re-Testing
- 13 Experience in Manual testing
- 14 QA process?
- 15 Explain your project
- 16 Roles and Responsibilities in Project
- 17 Automation using Selenium - Captcha?
- 18 Automation using Selenium - Win Auth Pop-up?
- 19 Automation using Selenium - Alerts?
- 20 Challenges during automation
- 21 Agile

QA/TESTING INTERVIEW QUESTIONS BY QA IDEA

MOBILE:- +91-8305429370

Cognizant interview questions:

- tell me about the frameworks you use in your project
 - What are collections in java
 - how do we do parallel execution of a scenario in testng
 - what are the annotations in testng
 - is constructor overloading possible for static class?
 - What is step definition in cucumber
 - what do you mean by hooks in java?
 - difference between throw, throws, throwable
 - can you declare an abstract class as final?
-
- Suppose you have to create a dropdown using selenium webdriver how would you do (there should be no duplicates)
 - tell me the logic for string palindrome
 - how can you split a character having combination of string, special characters and numbers

Click [here](#) to join Online Selenium Training.

What is Xpath?

Find elements and element?

Difference between Abstract and interface?

Which type of locators in selenium using ?

What is Abstract class?

What is final keyword?

What is Constructor?

Delaplex Interview Questions

- 1) Test Script Template
- 2) Entry and exit Criteria
- 3) Requirement Traceability Matrix
- 4) aggregate functions in sql
- 5) What is subquery?
- 6) Which query will execute First?
- 7) collection in postman

QA/TESTING INTERVIEW QUESTIONS BY QA IDEA

MOBILE:- +91-8305429370

- 8)function block in api
- 9)What is api?
- 10)explain local and global variable in api
- 11)400 error response
- 12)200 error response
- 13)201 error response
- 14)api error codes
- 15)What is Put Request?
- 16)What is api request?
- 17)What is api automation testing?
- 18)What is API?
- 19)How to hit a url using selenium?
- 20)Uses of this keyword?
- 21)What is access modifiers?
- 22)Types of modifiers
- 23)Explain private modifiers
- 24)use of interface in java
- 25)Can constructor can be overridden
- 26)What is oops concept?
- 27)Types of OOPS Concept?
- 28)Polymorphism and explain types
- 29)main use of inheritance in java
- 30)Inheritance in Java
- 31)what is object in java
- 32)TestNg Basic annotations
- 33)Handle Common exceptions:
- 34)what is NoSuchElementException
- 35) What is NoSuchWindowException?
- 36)Difference Between GetWindowHandle() And GetWindowHandles()
- 37)How to handle multiple windows in Selenium?
- 38)find elements in selenium
- 39)Methods in Selenium
- 40)Assert and verify in selenium
- 41)Locate Elements by Link Text & Partial Link Text in Selenium Webdriver
- 42)Locators and types
- 43)Use of test Runner in cucumber
- 44)What is cucumber feature file?
- 45)3 main files in cucumber
- 46) Types of files in Cucumber
- 47)Types of framework
- 48)Explain bdd framework
- 49)Data driver vs keyword driver framework vs hybrid framework

Cognizant Manager round

QA/TESTING INTERVIEW QUESTIONS BY QA IDEA

MOBILE:- +91-8305429370

- Explain your framework
- A scenario where link is present and its xpath is also correct what can be reason link is not present when we run testcase?
- And this is affecting further execution, how to make sure execution continue even if this fails?
- Exception types
- finally block

Cognizant Client(Credit Suisse) Interview

- What is Payload and its types
- How to pass Payload
- What is Page Object model
- On Web page we have label i.e. 34 verify if it is correct by comparing it with value stored in DB
- if this label i.e. 34 having spaces which are changing dynamically, how will you remove this spaces?
- How to do DB connection in selenium
- If there is label which is blinking(appear-disappear) and that too not at one location on page how can we get text of this label
- SQL query to get min & max of employee salary
- what is UNION & UNION ALL
- Having clause
- what is GIT hub
- If one of your teammate has made wrong commit and went on leave and now code is not running, what will be your approach without removing his code?

Click [here](#) to join Online Selenium Training.

#Delloite interview questions

- what is the difference between integration testing and regression testing
- How do you configure chrome using selenium webdriver
- What is sanity and smoke testing
- what is the agile technique you use in your project
- how do you store the run results for manual testing?
- how to store results for automation testing?

Click [here](#) to join Online Selenium Training.

Photon infotech interview questions

- Explain your framework
- Java collections API used in your project
- When and where do you use array and arraylist?
- Explain oops concept used in your framework?
- Explain Git Commands to push and retrieve the code?
- Explain Different annotations used in testng ?

QA/TESTING INTERVIEW QUESTIONS BY QA IDEA

MOBILE:- +91-8305429370

How will you achieve parallel execution?

Explain CI tool Jenkins ?

Explain Maven architecture?

Explain how selenium webdriver will work in backend?

Infosys

1. Difference between ArrayList and linklist
2. What is collection
3. How to iterate list
4. What is interface
5. Explain method over ride and method overloading
6. Can we override main method and why?
7. What is abstract class
8. What is Super keyword
9. What is encapsulation
10. What is webdriver
11. What is parent interface of Webdriver? Ans: "SearchContext"
12. Difference between findelement and findElements
13. Difference between
Webdriver driver=new FirefoxDriver() and
FirefoxDriver driver=new FirefoxDriver()
14. Explain throw and throws
15. Can try with multiple catch possible?
16. Can multiple try with single catch possible?
17. Explain your project
18. How you read/write the excel?
19. Are you able to design framework from scratch
20. Question on Jenkin

Click [here](#) to join Online Selenium Training.

Infosys

1. Difference between ArrayList and linklist
2. What is collection
3. How to iterate list
4. What is interface
5. Explain method over ride and method overloading
6. Can we override main method and why?
7. What is abstract class
8. What is Super keyword
9. What is encapsulation

QA/TESTING INTERVIEW QUESTIONS BY QA IDEA

10. What is webdriver
11. What is parent interface of Webdriver? Ans: "SearchContext"
12. Difference between findelement and findElements
13. Difference between
Webdriver driver=new FirefoxDriver() and
FirefoxDriver driver=new FirefoxDriver()
14. Explain throw and throws
15. Can try with multiple catch possible?
16. Can multiple try with single catch possible?
17. Explain your project
18. How you read/write the excel?
19. Are you able to design framework from scratch
20. Question on Jenkin

Click [here](#) to join Online Selenium Training.

Unify technology :

1. What is your role.
2. What challenges do you face while doing automation testing.
3. Give me an example of manual testing and automation testing each (like in which case we can do automation and in which case we can do manual)

Click [here](#) to join Online Selenium Training.

Infosys

1. Hybrid Framework flow
2. Agile methodology
3. Flow of your project.
4. What is interface
5. What is encapsulation

Click [here](#) to join Online Selenium Training.

Vodafone Interview Questions

- 1) Write a code to read the excel file
- 2) reverse a string in java without using any inbuilt function
String a="abcd1234"
- 3) prerequisite for automation testing
- 4) Pre-requisites for selenium
- 5) Use of Pom file in maven
- 6) Maven advantages over selenium

TCS

Explain about your roles and responsibilities.

What is functional testing?

What is sanity testing??

What is regression testing?

Which tool you are using ?

Have you worked on Rest soap?

Explain your project?

Do you have any knowledge about telecom domain?

What is bug life cycle?

What is Difference between SDLC and STLC??

Click [here](#) to join Online Selenium Training.

UST global interview questions:

1. Introduce yourself
2. Explain your project
3. Run time polymorphism
4. Write a program to reverse the string and calculate the length of each character and print the numbers.

MOBILE:- +91-8305429370

10. Localisation, globalisation and security testing.

Output: ESESESESEDESDESDESDESDESDDKDK

10. Which tool used for API testing & performance Testing?

Difference between find element & find elements

QA/TESTING INTERVIEW QUESTIONS BY QA IDEA

MOBILE:- +91-8305429370

different types of exceptions in selenium

difference between NoSuchElementException and ElementNotFoundException

Explain OOPs

what is encapsulation & where do u use it

where do u apply OOPs in Selenium

Method overloading & Method Overriding

Basic SQL

String value= "India is a great country" print only the interim characters from each word.

Capgemini

Which of the following WebDriver APIs Selenium have you used?

Which of the following version control or build tools have you worked on?

Which of the following Selenium locators have you used?

Which of the following programming language have you used with Selenium

Which of the following methodologies have you worked on

Which of the following Selenium version have you used?

Which of the following automation activities have you worked on?

Other than test automation, what are the activities that you have performed

Have you been involved in the following activities

- 1.Determining if the test case is automatable
- 2.Troubleshooting overall automation issues eg. improving the time taken to run an automated regression suite
- 3.Creating or significantly modifying test automation framework
- 4.Creating test automation strategy

Which of the following development practices have you been exposed to?

Which of the following techniques / aspects of mobile testing have you worked with?

Which of the following test automation tool have you used?

Which of the following test automation frameworks have you used?

- 1 Test Driven Development (TDD)
- 2 Behaviour driven (BDD)
- 3 Data driven
- 4 Keyword driven
- 5 Hybrid

Click [here](#) to join Online Selenium Training.

Capgemini interview questions:

- 1.tell me about urself
2. Explain ur project
3. Polymorphism, compile time polymorphism

QA/TESTING INTERVIEW QUESTIONS BY QA IDEA

MOBILE:- +91-8305429370

4. testing and what types of annotations u have used in ur project
5. build tool- maven
6. version control tool
7. r u using jenkins. How u r configuring jenkins jobs
8. double click on selenium
9. In Action class , what type of predefined methods we hav in selenium
10. List, set in collection
11. types of waits in selenium
12. Can a constructor be overridden?
13. Can a constructor be overloaded?

Click [here](#) to join Online Selenium Training.

Accenture Interview Questions:

1. Introduce yourself.
2. Tell about your projects.
3. How you understand the business requirements being a team lead in your project?
4. What is requirement traceability matrix?
5. What is regression testing?
6. What is functional testing?
7. What is integration testing?
8. What you have worked on in database testing?
9. Which framework you have used in your current project?
10. Explain your entire project step by step, everything that you do.
11. Have you been a part of test automation scope?
12. Out of 5000 scripts you have to automate only 1000 scripts, then what will be your criteria to choose those 1000 scripts?
13. Have you worked on waterfall model or only on Agile?

Click [here](#) to join Online Selenium Training.

Resideo Interview questions:

1. Explain the projects worked on previous organization
2. explain the project unr working in current organization
3. Write a program to swap the numbers.
4. Write a program to swap the array {1,2,3,4,5}
5. How u r executing the failed test cases ?Have u used RetryAnalyzer ?
6. Abstract class and interface
7. How can u achieve data hiding?
8. Encapsulation
9. How u r identifying elements in ur project?
10. Which framework r using?
11. Collection in selenium

QA/TESTING INTERVIEW QUESTIONS BY QA IDEA

MOBILE:- +91-8305429370

12. How r u handling late night meeting with US clients?
13. Have u face any challenges in ur project. If yes how u have handled that?
14. final , finally keywords
15. How u r using the common functions in the step file (jave file) which is written in the base file?
16. how the execution starts in ur project?

Click [here](#) to join Online Selenium Training.

Intuit Interview Questions:

- 1)BDD Framework in selenium
- 2)How to write bdd test
- 3)Types oF Framework
- 4)Use of webdriver in selenium
- 5)How application to be platform independent
- 6)Test Plan Document
- 7)What are the git commands
- 8)Process if we are making changes in Load system then how will affect in git
- 9)Get- push
- 10)Get Pull
- 11)Oops concept
- 12)Java encapsulation
- 13)Inheritance in java
- 14)what are the mechanism in Inheritance in java
- 15)what are the api error codes 200,400,401,403
- 16)Different types of Rest api
- 17)get-api
- 18)How to pass query parameters in HTTP Get request using rest assured
- 19)Different types of reports supported by cucumber
- 20)In Mobile,Which type of testing you are performed
- 21)What is maven?
- 22)What are the advantages of maven over selenium
- 23)What are the different kinds of rest api?
- 24)If any application we have to automate then how will start our process?
- 25)Give Indexes of array elements which has sum=10
Array arr={1,2,3,4,5,6,7,8,9}
eg. 1+9=10 so print index 0 and 9
2+8=10 so print index 1 and 8
- 26)How hashmap works internally?

Hogarth India

Q. Tell me about yourself

QA/TESTING INTERVIEW QUESTIONS BY QA IDEA

MOBILE:- +91-8305429370

- Q. Explain your roles and responsibilities in your current project
- Q. How to create pipelines in Jenkins
- Q. What are listeners in TestNG?
- Q. Where you store failed and passed reports?
- Q. How to integrate with Pom.xml

Click [here](#) to join Online Selenium Training.

ThoughtBees Interview Question:

- 1.Introduce yourself
- 2.Read data from csv
- 3.Generate random numbers and write the same into csv.
- 4.Go to flipkart.com and take a screenshot in the folder called flipkart and if the folder is not available please create and write into it.

Click [here](#) to join Online Selenium Training.

Wipro interview Questions:

- 1.Oops Concept
- 2.Difference between Abstract class and Inheritance
- 3.What is object class.
- 4.What is constructor.
- 5.destructor in java
- 6.multiple inheritance in java
- 7.Types of polymorphism
- 8.Multilevel inheritance in java
- 9.What framework used in your project
- 10.To maintain the test cases in TestNG, what other tool used
- 11.What is xpath in java
- 12.Have you ever used custom xpath in your project
- 13.what are different annotations in TestNG
- 14.What are the differences between get() and navigate() method?
- 15.What is Xpath in Xml
- 16.What are the locators in Selenium.

Click [here](#) to join Online Selenium Training.

MassMutual interview questions

1. Explain OOPS concept.
2. Explain OOPS concept in your Selenium project.

QA/TESTING INTERVIEW QUESTIONS BY QA IDEA

MOBILE:- +91-8305429370

3. Which type of variables can we have in interface? Can we have non-static variables?
4. Can we have methods with body inside Interface?
5. Which version java are you using?
6. How to create read only classes?
7. Duplicate - return type of method - Method Overloading - Is it right?
8. How can you achieve Multiple Inheritance in Java?
9. What is Diamond problem?
10. Can we change value of static variables?
11. Usage of super and this keyword?
12. Program: String str="32400121200";
Output should be: 00003241212 (all zeroes should be in starting)
13. What is Exception handling? How to handle it?
14. What is Exception propagation?
15. Can we have try block without catch block?
16. Will finally block be always executed? Can I abort the program before running this finally?
17. Sysout statement after finally block? Will it get execute?
-
18. OAuth 1 vs OAuth2 - Difference
19. https / http - security? - Difference?
20. Design pattern in API testing framework
21. Any idea about BDD Cucumber?
22. Log4J levels - default
23. Appenders - Types?
-
24. git merge
25. git conflict
26. git fetch
27. Ever check what is inside this -> .git folder?
-
28. XPath Axes :
Go to <https://www.moneycontrol.com/>
MOST ACTIVE section ->
29. Xpath for Change column (with Tata Steel) -> (//a[text()='Tata Steel']/parent::td)//following::td[2]
30. following vs following-sibling?
31. How can I check whether Tata steel is there in 1st column or not?

Click [here](#) to join Online Selenium Training.

TATA Elxsi interview questions=

- 1 what is API testing and how it works
2. Diff between abstract class & interface
3. What is git config
4. What is architecture of your automation project
5. What is oops concepts in java
6. What is TestNg

QA/TESTING INTERVIEW QUESTIONS BY QA IDEA

MOBILE:- +91-8305429370

7. How you run your test cases in TestNg
8. What are collections in Java ?
9. What is HashMap?
10. exception handling in java
- 12, annotations in TestNg
- 13 .what is your role and responsibilities in your project
- 14 . What is difference between method overloading and overriding.

Click [here](#) to join Online Selenium Training.

Nagarro interview 1st technical interview - May 07, 2021

1. How to handle alerts?
 2. How to take screenshots?
 3. What is actions class? Write the syntax for it.
 4. How to capture broken links?
 5. What are the different types of waits?
- Can you write syntax for Implicit and Explicit wait?
6. Scripts execution in HEADLESS mode?
- How many ways it is possible?
7. DesiredCapabilities? Write down the syntax?
 8. setCapabilities and addArguments?
 9. Write data (with Columns) using Apache POI?
 10. How many Meetings in Agile?
 11. You are the only one Automation resource in your project, What would be your approach? Are you able to design the framework from scratch?
 12. Cucumber -> Feature file, Steps and how to run the test cases?

Click [here](#) to join Online Selenium Training.

Joulstowatts

1st round

1. Tell me about yourself
2. What framework you have used & Explain your project framework flow .
3. Java oops concept how do we use in selenium
4. What is fluent wait in selenium
5. Where we use synchronization in selenium.
6. How do you find links in web page
7. What are TestNG annotations
8. What is TestNG parameter annotations about .
9. What is TestNG priority annotation is about.
10. With out mentioning any TESTNG ANNOTATIONS which test case will execute first
11. Where do you use action methods in selenium.
12. How do you handle frames what is syntax for that .

People 10 2nd Round Interview Questions

1. Introduce yourself on the technologies you have worked
2. How to do cope up when u have to work on weekly releases
3. On what basis you will sign off on the final build before release?
4. Where do you see your plans for career growth?
5. How to do test the hotfix?
6. What approach do you follow for Client Interactions?

QA/TESTING INTERVIEW QUESTIONS BY QA IDEA

MOBILE:- +91-8305429370

7. In a Pressurized situation how do you place yourself?
8. Will you able to stretch as the agile builds would be released in the evening time So what approach of testing you do when u have sign off the feature by the next day?

Click [here](#) to join Online Selenium Training.

Simplyfy3x Interview Questions

1. Introduce yourself?
2. How much rating you will give for yourself on a scale on 1 to 10 for Java, Selenium WebDriver & Manual Testing?
3. What is ROI for Automation?
4. What is Invoice & what kind of testing & what are the scenarios you perform?
5. If you have 500TCs are backlog for automation how do to choose the TCs, On what conditions you tell these are TCs you have to do automation?
6. What is usability testing?
7. When will you start Automation testing for the project in which phase?
8. what is Test Driver?
9. What is Test Stub?

Click [here](#) to join Online Selenium Training.

Artech Info system(Bangalore) Interview questions for Capgemini:

Tell me about yourself.
Tell me about your project.
Which domain you worked on?
Where have you use API testing?
What have you done in API testing?
Which is java version you have used? What is new about 1.8 than 1.7 version?
Which Versioning tool you have use in your project? Explain?
How you perform parallel testing in selenium? explain?
Have you use TestNG for your project? Explain.
What is Jenkins? How you use in your project? Explain.
How you use dropdown in selenium? Syntax?
What is the command for selecting word and what is command you used for selecting number from drop down?

Click [here](#) to join Online Selenium Training.

IBM technical round:

Explain about your project

QA/TESTING INTERVIEW QUESTIONS BY QA IDEA

MOBILE:- +91-8305429370

Explain frame work

Explain cucumber framework

What are cucumber options

What is maven

Difference types of assert in testng

What is the difference between soft assert, hard assert, verify

How do you handle dynamic path

What if your path is not having id, name, class name.. How will you locate element using path

How to handle frames. What are the different methods to handle frames

How to handle multiple windows

Difference between close and quit

How to handle tool tip

What are the different annotations you have used in your project

How to you identify regression cases for automation and manual

Quantira Interview Questions:

Technical:

- a) Tell us something about your work, experience, project and how are you doing in your project?
- b) In Financial products being developed what Software Model would you suggest for Developers, is it Agile or Scrum and why?
- c) What are the limitations of Scrum model
- d) What Automation Architecture are you following in your project?
- e) What kind of UI tests will be implemented if you have categorize based options to be chosen. For ex: If you select a category, 5 options are displayed, if you select 2nd category, 3 options are displayed.
- f) What tools are you using in your current project and how are you implementing it
- g) Although Jmeter is considered for Performance but it is not safe to use for highly sensitive and confidential projects therefore tell us your suggestion about how are you going to implement performance testing.
- h) How to automation bar charts, pie charts?
- i) How to handle the automation if bar charts and pie charts are taking time to display and if failed how would you take screenshot?
- j) Why are you looking for Job change?
- k) How can you contribute yourself into our products since we are looking for person who is strong in Finance (not in Insurance or Banking domain)
- l) What is your current role and how are you managing it
- m) How do you plan and estimate the project and coordinate with the developers

Personal:

- a) During this COVID situation, since everyone is working from home. How would you manage the project with other team members and get the things done on time?

Perfios interview Questions:

1) Find the output-

```
class A{  
A(){  
return;  
}  
psvm(){  
new A()  
}  
}
```

2) Find the output -

```
class A{  
A(){  
s.op("A");  
}  
}  
class B extends A{  
B(){  
s.o.p("B");  
}  
main(){  
new B();  
}  
}
```

3) Suppose we have a string as -

String name = "name:robert,age:28,jobtype:permanent,country:Canada"

How to get the below output ?

The key "name" has value "robert"

The key "age" has value "28"

The key "jobtype" has value "permanent"

the key "country" has value "Canada"

4) Suppose you have a message as below-

"The OTP for your transactions is 615235. This will be valid only for 10 mins."

How would you extract just the otp from the above

5) What is regular expression in java?

6) how to find xpath for dynamic elements ? for example-

<div id="ab124">

Cognizant interview

1. Tell about your work experience
2. Role and responsibility
3. Explain the project/product you are working on
4. Explain agile model and How you are Doing testing in your team
5. Explain automation Framework used in your project
6. How do you write xpath in selenium
7. How do you print all the values from drop down to a console in selenium

Click [here](#) to join Online Selenium Training.

Wipro questions----

1. Diff between abstract class & interface
2. What is git config
3. What is architecture of your automation project
4. What is String ?
5. Diff between FindBy & Find element
6. What is Maven
7. how you run your test cases in cucumber
8. What are components of cucumber framework
9. What are collections in Java ?
10. What is HashMap?

Cybage Interview Questions:

QA/TESTING INTERVIEW QUESTIONS BY QA IDEA

MOBILE:- +91-8305429370

- a) Tell me about your Project, what are your day to day responsibilities?
- b) Suppose you are alone as Automation specialist and you have new client. Explain all the steps you will follow from start till end.
- c) What are the criteria you will follow while deciding Automation Tool and Framework for the project
- d) In what instances Xpath will not be used
- e) What are the different locators and at what instances those locators will be used in Selenium
- f) If I have executed all scripts using CSS locator in the Chrome, will the same scripts be executed in the Firefox browser given Firefox driver object is used?
- g) What is static method and where would you implement in the Project
- i) If you have a login page with username and password, give me an estimation of doing an automation for that page.
- j) What are the benefits of Keyword driven framework
- k) What is abstract class, can you instantiate it?
- l) Where would you use Abstract classes while doing Automation?
- m) Why Page factory is implemented? What are its drawbacks.
- n) Do you know about Node and Hub? How would you automate it?
- o) You are table Employee with Columns Names as EmpID, Name and Salary. Write SQL Script to extract the name of the Employee who has maximum Salary?

Rest- Assured API Automation Interview Questions for experience.

- 1. What is difference between API and Webservice.
- 2. What is difference between SOAP & Rest API.
- 3. Can you write a sample of API(URL) and JSON.
- 4. How do you handle Authentication token.
- 5. How many type of Authentication in POSTMAN/ Rest-Assured.
- 6. What is difference between OAuth1.0 and OAuth2.0 ,When and where do you use and how. Can you write a sample code.
- 7. What is baseURI in RestAssured.
- 8. Can you explain RequestSpecification request = RestAssured.given();
- 9. What will be returned type of response.jsonPath().getJsonObject("XYZ");
- 10. How do you extract the values of JSON and how do you validate response.

QA/TESTING INTERVIEW QUESTIONS BY QA IDEA

MOBILE:- +91-8305429370

11. Can you write a code of save the response in a JSON file.
12. How do you validate headers of response.
13. What is difference between Headers and Header class.
14. What is difference between response.header("xyz") and response.headers() methods.
15. Can you extract all the headers from response at run time.
16. What is JSONObject() , request.header("xyz"), response.path("lable") , response.body().asString() , response.getBody().prettyPrint(); , RestAssured.given().queryParams("xyz","abc");
17. What is difference between request.get("https://dev-mode.com/api/allcustomers") and request.request(Method.GET,"/ allcustomers ");
18. What is difference between PUT and Patch . Have you ever used and where.
19. What are status code(2xx ,3xx ,4xx, 5xx) in API.
20. How do you print your response in JSON format.
21. How do you post body in POST and how many way to post.
22. What all are the dependency for Rest-Assured.

#Appium | Mobile Automation

Appium is an open-source test framework for automating native, mobile web, and hybrid applications on iOS and Android platforms.

- Native apps: written using the iOS, Android, or Windows SDKs.
- Web apps: accessed using a mobile browser.
- Hybrid apps: wrapper around a “webview” – a native control that enables interaction with web content.

Appium is cross platform, i.e. write tests against multiple platforms (iOS, Android, Windows), using the same API (code reuse).

Appium uses vendor-provided automation frameworks (Apple’s XCTest, Google UiAutomator, Google Instrumentation via Selendroid, Microsoft WinAppDriver) so that there is no need to change-recompile the app.

Appium wraps the vendor-provided frameworks in one API, the WebDriver API. WebDriver (aka “Selenium WebDriver”) specifies a client-server protocol (known as the JSON Wire Protocol). Given this client-server architecture, a client written in any language can be used to send the appropriate HTTP requests to the server. There are already clients written in every popular programming language.

Note: Appium & WebDriver clients are not technically ‘test frameworks’ – they are “automation libraries”.

-
1. Data Provider using XML
 2. Different types of waits with syntax?
 3. Types of locators
 4. What is Relative XPath and Absolute XPath? Which is better and why?
 5. findElement() and findElements() -> Return type?
 6. What is Page Object Model?
 7. How do you handle List of web elements in Page Object Model framework?
 8. How to open new Tab using JavascriptExecutor?
 9. How to switch between tabs?
 10. driver.close() and driver.quit()?
 11. @BeforeClass, @BeforeTest
 12. What is the disadvantage of AutoIT? Why do we need it?
 13. Verify vs Assert?
 14. Ever worked with Selenium Grid? What is the architecture?
 15. Have you worked with Jenkins?
 16. How many types of Parameters are available in Jenkins job?
 17. How to schedule the job? What is the pattern?
 18. Git fetch vs git pull?
 19. How to you handle merge conflicts?
-

Programs?

```
1. public class MathTest {  
    public void main(String[] args) {  
        int x = 10*10-10;  
        System.out.println(x);  
    }  
}
```

```
2. public class Test {  
    public static void main(String[] args) {  
        try {  
            throw new IOException("Hello");  
        } catch (IOException | Exception e) {  
            System.out.println(e.getMessage());  
        }  
    }  
}
```

3. Input -> String str = "AABACCADDA";
Find the occurrence of characters present inside the String?

4. 2nd largest integer in an Integer Array.

TSYS Global Payments

Round 1 (May 08, 2021) (04:30 pm to 5:15 pm)

=====

1. Exception Handling - try, catch, finally
2. finally vs finalize?
3. How to get the links count inside 1 web page?
4. How do you handle Alerts?
5. What is the parent class of Alert
6. How to take Screenshots?
7. What is interface and Abstract class?
8. Why interfaces are used?
9. Program - Method overloading and Method Overriding?
10. What is the usage of final keyword?
11. What is the use of final class? Example of any final class in Java.
12. final int variableName; Will it give any error during compile time?
13. Why static block is used?

API Testing

1. How to validate the response code is 200, using RestAssured library?
2. PUT vs POST?
3. PUT vs PATCH
4. Different status codes.

Database Testing

1. Joins
2. Write a query to get list of employees whose Salary is more than 10000.
3. Write a query to get the employee who has max salary.
4. Delete and Employee whose name is John

QA/TESTING INTERVIEW QUESTIONS BY QA IDEA

MOBILE:- +91-8305429370

5. DROP vs DELETE vs TRUNCATE

6. DDL vs DML? Can you list any of them?

Java Programs:

```
1. Class A{
    final int number1;
    public static void main(String[] args){
        System.out.println(number1);
    }
}
```

2. int_Array -> 2nd largest in the array

```
int[] int_Array={10,32,3,5,47};
```

3. Write a Program to find whether String is Palindrome or not

```
*****
*****
```

Round 2 (May 08, 2021)(05:40 pm to 06:40 pm)

1. How do you execute only the failed Test cases?
2. Any other way than IRetryListener, is there a way to achieve the above?
3. Upload a file using AutoIT?
4. What Auto IT and how exactly you are using that in your script?
5. SQL -> GROUP BY, JOINS,
6. static keyword usage (Method, block, variable)
7. Why can't we over-ride the static method
8. OOPS concept in your Selenium project

Programs

```
1. int[] int_Array={1,9,8,19,4,1.....1000 items};
Which 3 consecutive no. are there in the Array has maximum sum?
1,2,3 _ 2,3,4 _ 3,4,5 _ ....
```

```
2. Input: "I AM in TSYS"
Write a generic way so that I get output as "I AM in TSYS".
```

QA/TESTING INTERVIEW QUESTIONS BY QA IDEA

MOBILE:- +91-8305429370

```
3. class Super {
    public int index = 1;
}
class App extends Super {
    public App(int index) {
        index = index;
    }
    public static void main(String args[]) {
        App myApp = new App(10);
        System.out.println(myApp.index);
    }
}
```

```
4. try {
    print "1"
    // some code throw IOException
}
catch(Exception e)
{
    print "2"
}
catch(IOException IO)
{
    print "3"
}
finally {
    print "4"
}
```

Interview questions in Capgemini last Saturday.

- OOPS concepts used in your framework
- Have you handled Exceptions in your Automation framework ? Which exception have you handled ?

QA/TESTING INTERVIEW QUESTIONS BY QA IDEA

MOBILE:- +91-8305429370

- Which Collection methods used in the framework
- Data Structure algorithm which one is fastest and slowest.
- Does it impact on the performance of your framework ? And how

Click [here](#) to join Online Selenium Training.

Accenture interview questions:-

- Re-testing and regression testing difference
- Waterfall and agile main difference
- Bug Life cycle
- How to handle selenium inner frames
- TestNG and junit difference
- TestNG annotations
- Advantages of Junit
- Interface and constructor difference
- Method overloading and overriding
- If issue you seen on test environment and not reported and same issue found by customer how will you handle this situation?
- If you are clicking on button on webpage and it is not working how you will trouble shoot this issue?
- If there is radio button, you have given correct locator and still it is not working how you will trouble shoot?
- There 300 scripts it takes 3 days to complete but your Manager asking you complete this in 2 days. What you will do?

#Perfios Technical interview Ques- Round 3-

- Explain your day to day activities in your project
- Explain your project framework
- What percentage of manual testing do you do in your project
- What is the difference between abstract class and interface ?
- What is checked and unchecked exception?
- What is the difference between string and string buffer?
- What are Jenkins?
- What are the tools you used for API testing?
- What type of commands you used to extract data from DB using SQL?

QA/TESTING INTERVIEW QUESTIONS BY QA IDEA

MOBILE:- +91-8305429370

Cognizant interview questions:

1. Whats is java?
2. What is Object?
3. Purpose of creation of interface?
4. What is constructor? Types of constructors?
5. Separate string in DD-MM-YYYY format.
String- 10.05.2021
6. Joins in SQL
7. Sort employees by name whos salary is high to low.

Click [here](#) to join Online Selenium Training.

TCS Interview questions:

1. Types of locators in Selenium.
2. How do you work on dropdowns.
3. Types of waits in selenium
4. Jenkins and GitHub
5. What is Test plan and Test case
6. Bug reporting tool

YTSPIL (YT Solutions) Interview questions :-

- #Explain project flow.
- #Difference between testcase and Testscenario.
- #Difference between smoke sanity testing.
- #Difference between positive and negative testing with example.
- #Difference between verification and validation
- # difference black box testing and white box testing.
- # overloading and overriding
- # how can we get a Text of web elements.
- #Locators in selenium.
- # write down the login page scenarios and test cases
- # how to handle alert pop-up in selenium.
- # How to add to cart in Amazon application
- #Defect life cycle.
- # SDLC phases described.
- #Functional testing and non-functional testing with type.
- # retesting nd regression testing
- # integration testing.

Telubu Internationls 1st technical round

QA/TESTING INTERVIEW QUESTIONS BY QA IDEA

MOBILE:- +91-8305429370

1. What are the different categories Of response code which we have
2xx, 3xx, 4xx, 5xx
2. Difference between PUT vs PATCH?
3. Ever worked with RestAssured framework?
4. What is Authentication and Authorization? Different methods?
5. What is the use of access token?
6. What is the role of Headers in webservice?

-
1. Data Provider using XML
 2. Different types of waits with syntax?
 3. Types of locators
 4. What is Relative XPath and Absolute XPath? Which is better and why?
 5. findElement() and findElements() -> Return type?
 6. What is Page Object Model?
 7. How do you handle List of web elements in Page Object Model framework?
 8. How to open new Tab using JavascriptExecutor?
 9. How to switch between tabs?
 10. driver.close() and driver.quit()?
 11. @BeforeClass, @BeforeTest
 12. What is the disadvantage of AutoIT? Why do we need it?
 13. Verify vs Assert?
 14. Ever worked with Selenium Grid? What is the architecture?
 15. Have you worked with Jenkins?
 16. How many types of Parameters are available in Jenkins job?
 17. How to schedule the job? What is the pattern?
 18. Git fetch vs git pull?
 19. How to you handle merge conflicts?
-

Programs?

```
1. public class MathTest {  
    public void main(String[] args) {  
        int x = 10*10-10;  
        System.out.println(x);  
    }  
}
```

```
2. public class Test {  
    public static void main(String[] args) {  
        try {  
            throw new IOException("Hello");  
        } catch (IOException | Exception e) {  
            System.out.println(e.getMessage());  
        }  
    }  
}
```

QA/TESTING INTERVIEW QUESTIONS BY QA IDEA

MOBILE:- +91-8305429370

3. Input -> String str = "AABACCADDA";
Find the occurrence of characters present inside the String?

4. 2nd largest integer in an Integer Array.

TSYS Global Payments

Round 1 (May 08, 2021) (04:30 pm to 5:15 pm)

=====

1. Exception Handling - try, catch, finally
2. finally vs finalize?
3. How to get the links count inside 1 web page?
4. How do you handle Alerts?
5. What is the parent class of Alert?
6. How to take Screenshots?
7. What is interface and Abstract class?
8. Why interfaces are used?
9. Program - Method overloading and Method Overriding?
10. What is the usage of final keyword?
11. What is the use of final class? Example of any final class in Java.
12. final int variableName; Will it give any error during compile time?
13. Why static block is used?

API Testing

1. How to validate the response code is 200, using RestAssured library?
2. PUT vs POST?
3. PUT vs PATCH
4. Different status codes.

Database Testing

1. Joins
2. Write a query to get list of employees whose Salary is more than 10000.
3. Write a query to get the employee who has max salary.
4. Delete and Employee whose name is John
5. DROP vs DELETE vs TRUNCATE
6. DDL vs DML? Can you list any of them?

QA/TESTING INTERVIEW QUESTIONS BY QA IDEA
MOBILE:- +91-8305429370

Java Programs:

```
1. Class A{
    final int number1;
    public static void main(String[] args){
        System.out.println(number1);
    }
}
```

2. int_Array -> 2nd largest in the array
int[] int_Array={10,32,3,5,47};

3. Write a Program to find whether String is Palindrome or not

Round 2 (May 08, 2021)(05:40 pm to 06:40 pm)

-
1. How do you execute only the failed Test cases?
 2. Any other way than IRetryListener, is there a way to achieve the above?
 3. Upload a file using AutoIT?
 4. What Auto IT and how exactly you are using that in your script?
 5. SQL -> GROUP BY, JOINS,
 6. static keyword usage (Method, block, variable)
 7. Why can't we over-ride the static method
 8. OOPS concept in your Selenium project

Programs

1. int[] int_Array={1,9,8,19,4,1.....1000 items};
Which 3 consecutive no. are there in the Array has maximum sum?
1,2,3 _ 2,3,4 _ 3,4,5 _

2. Input: "I AM in TSYS"
Write a generic way so that I get output as "I AM in TSYS".

3. class Super {
 public int index = 1;
}
class App extends Super {
 public App(int index) {
 index = index;
 }
}

QA/TESTING INTERVIEW QUESTIONS BY QA IDEA

MOBILE:- +91-8305429370

```
}  
public static void main(String args[]) {  
    App myApp = new App(10);  
    System.out.println(myApp.index);  
}  
}
```

```
4. try {  
    print "1"  
    // some code throw IOException  
}  
catch(Exception e)  
{  
    print "2"  
}  
catch(IOException IO)  
{  
    print "3"  
}  
finally {  
    print "4"  
}  
}
```

JK Tech Interview Questions:

- a) Tell me something about existing and previous project and your role in those projects
- b) Write a code to calculate the sum of Harmoni's series
- c) Difference between Abstract and Interface
- d) Why Webdriver is an interface not a class?
- e) What is Imutable and Mutable in Java?
- f) Write a code to count the characters within a String
- g) Usage of JUnit in Karate Framework
- h) What is Same Origin Policy
- i) Write a code to print the following:

```
1  
2 3  
4 5 6  
7 8 9 10
```

- j) Write the Javascript code to handle the runtime pop up asking for login credentials
- k) How to calculate the size of JSON?
- l) What are the different annotations followed in TestNG?

QA/TESTING INTERVIEW QUESTIONS BY QA IDEA

MOBILE:- +91-8305429370

- m) How to control the order of execution using TestNG?
- n) What is the purpose of Maven?
- o) Any RPA tools you have worked in?
- p) Why Javascript is used in Selenium?
- q) What is feature file and how to write it.
- r) What is latent defect?
- s) Do you know about mock?

Today's, Capgemini interview questions ?

- 1) Tell me about yourself?
- 2) Where do you work?
- 3) How many years experience in manual and automation?
- 4) Which tool use in API testing?
- 5) How many methods in postman tool?
- 6) Tell me the name of that method?
- 7) Difference between abstract class & interface?
- 8) Only abstract methods use in abstract class or non-abstract methods also use?
- 9) Difference between authentication & authorization?
- 10) Status code in postman tool- 201, 203, 204, 401, 404?
- 11) Which method use in Interface?
- 12) Non-abstract method use in interface or not?
- 13) Which type of memory allocate string?
- 14) String is immutable or not?
- 15) What is immutable?
- 16) Do you work in cucumber and selenium?
- 17) And do you have knowledge of selenium and cucumbers?

TestVagant Technical Round : Role - SDET

- 1. What coding standards are you following in your project?
- 2. How many ways to iterate the List?
- 3. Iterate the set?
- 4. Sorting for user-defined objects
- 5. Enum usage
- 6. Parallel Testing
- 7. How are you initializing WebDriver and destroying the webdriver instance?

QA/TESTING INTERVIEW QUESTIONS BY QA IDEA

MOBILE:- +91-8305429370

8. Maven plugins | Maven commands
9. How are you doing Authentication?
10. Authentication vs Authorization
11. POST vs PUT
12. git rebase
13. Java Streams
14. Created Interface in project?
15. Checked and Unchecked Exceptions

Click [here](#) to join Online Selenium Training.

#UST Global interview question:

Write a code switch windows

Write a code to display all data in a webtable

difference between driver.findElement and driver.findElements

what is the exception driver.findElement and driver.findElements give if no element is found

Write a syntax to select a value from drop down

Write a code to count total number of links in a webpage

What is absolute xpath

Click [here](#) to join Online Selenium Training.

Aequor Technology interview questions?

1. What is extends keyword
2. What is implements keyword
3. What are abstract methods
4. What is the difference between java and java script
5. What is inheritance
6. What is abstract class.
7. What is the difference between inheritance and abstract class
8. How do you call an inheritance inside the class

Click [here](#) to join Online Selenium Training.

Cognizant interview questions:

1. Absolute and relative xpath
2. Difference between implicit, explicit and fluent waits

QA/TESTING INTERVIEW QUESTIONS BY QA IDEA

MOBILE:- +91-8305429370

3. What happens if condition doesn't meet in explicit wait
4. What is webDriver
5. Which one is concrete class in webDriver driver=new ChromDriver statement?
6. How to select contents from drop-down
7. What are the operations that can be performed using select class
8. Write a complete code to enter your name in a textbox on a webpage
9. What is the extension of chrome driver
10. Why chrome driver is required
11. Return type of webElemnt and webElements
12. What are the tools required in selenium automation

Click [here](#) to join Online Selenium Training.

Automtion Engineer (Infosys Australia joined with local employer in telephone interview process)
what are different software testing types?

When to do automation testing?

Defect lifecycle? how you handle diffiects?

what is diffrence between streams and collections ?

Difference in HashMap and Hash table and when do you use them?

Explain POM?

what is Data driven testing ?

Explain your framework in current project?
positive testing yes or No explain ?

Can we use same framework for negative and

What is streams?

Advantage of frame work?

What is your understanding on CD/CI what tools or technologies are important in this?

Have you done data base testing?

How you manage team? what methodology you following ?

How you manage stress?

how is handle 50 to 100 test cases in one day ?

What are your weaknesses ?

SELENIUM with JAVA all interview room questions

☒Automation:☒

1. What is xpath and its types?
2. What is cross browser testing and parallel testing?
3. Challenges faced during selenium testing?
4. What is Actions class?
5. How to handle drop down in selenium?
6. How to handle multiple browser pop up?
7. How to handle multiple browser tabs in selenium?
8. How to perform upload file using selenium?
9. How to perform download file using selenium?
10. How to get all values of dropdown in selenium?
11. How to perform (control + a) through selenium?
12. How to shift between tabs of a same browser using selenium?
13. What is Robot class?
14. What is AutoIT?
15. What are the difference between get() and navigate()?
16. What are the difference between findElement() and findElements()?
17. What is difference between quit() and close()?
18. What are different locators used?
19. Difference between xpath and cssSelector?
20. Different approaches to click the submit button?
21. What is javascriptExecutor and when it is used?
22. Handling WebTable(static and dynamic) in selenium
23. What is POM? Advantage and its disadvantage?
24. What is maven? list its phases or life cycle? Command to run our project thro maven?
25. Explain ur project folder structure? Or Explain ur frame work?
26. What is testng?
27. How to create and delete cookies?
28. What does getWindowHandles() and getWindowHandle() return? Or its differences?
29. Is it possible to use only perform() without build()? 30. What is perform() and build()?

QA/TESTING INTERVIEW QUESTIONS BY QA IDEA

MOBILE:- +91-8305429370

- 31.How to scroll the browser window?
32. Preceding sibling and following sibling of custom xpath?
- 33.What is test management tool used in ur project?
- 34.What is the build automation tool used in ur project?
- 35.How u will handle the SSL certification?
Or what is DesiredCapabilities?
- 36.How to verify 'Bangalore' present in dropdown box or not?
- 37.How to verify 'Bangalore' present in 4x4 webtable? And print the column and row number of it is present?
- 38.How to fetch the data from particular row and column of excel?
- 39.List all maven plugins like surefire plugin etc
- 40.What is jenkins?And explain its use?
- 41.Explain the tags present in testng.xml file
- 42.What is TDD?
- 43.What is BDD? Explain cucumber framework?What is gherkins?
- 44.What is Listener?
- 45.What is DataProvider?
- 46.What is parameterization?
- 47.What is PageFactory?
- 48.What is apache POI API? Or how to read data from excel?
- 49.What is explicit and implicit waits?
- 50.What are the challenges faced in automation testing?
- 51.Write code for handling multiple browsers and switch to new windows?
- 52.What is webdriver?And why webdriver is used?
- 53.List some selenium exceptions
- 54.What is StaleElementReferenceException?When this occurs?And how to overcome such exception?
- 55.How do you group the test cases? And why?
- 56.How to include or exclude test cases?
- 57.What is NullPointerException?When it occurs?
- 58.What is selenium grid?
- 59.Should have knowledge on all testng annotations.
- 60.How do you control the execution of your test cases/test classes?
- 61.Git and its commands
- 62.Maven commands to execute,debug,compile
- 63.What is the current version of maven used?
- 64.How to identify broken links?How you have done in your project?Write code or tell approach.
- 65.Write a code to fetch the value 'Test' from excel sheet which might be present in any cell in excel. Or check whether value 'Test' is present in excel or not.
- 66.How to pass values to textbox other than using sendKeys()?
- 67.How to click login button other than using click(), submit() and JavascriptExecutor?
- 68.What is subversion?

Manual:

- 1.What are test design techniques?Explain BVA and ECP with some example?
- 2.Explain STLC
- 3.Explain Bug Life Cycle
- 4.What is the difference between bug and defect?
- 5.What is severity and priority?

QA/TESTING INTERVIEW QUESTIONS BY QA IDEA
MOBILE:- +91-8305429370

- 6.Explain SDLC
- 7.What are the differences between smoke and sanity testing?

Johnsons Controls Interview Questions

- 1.What is TestNG
- 2.What are the annotations used in TestNG
- 3.How do you skip a test case in TestNG
- 4.Difference between '/' and '//'
- 5.Difference between absolute and relative Xpath
- 6.What is Xpath
- 7.Diff types of locators in selenium
- 8.Syntax for dropdown selection
- 9.Syntax to check if the radio button is selected or not
- 10.How to check if a page is loaded or not
- 11.Any example using CSS selector
- 12.How to switch to a frame
- 13.how to handle frames
- 14.how to handle pop-up's
- 15.different types of Navigate methods
- 16.difference between driver.quit() and driver.close()
- 17.Implicit and explicit wait
- 18.different between setSpeed and sleep in selenium

QA/TESTING INTERVIEW QUESTIONS BY QA IDEA

MOBILE:- +91-8305429370

- 19.what is Thread.Sleep() in selenium
- 20.What is selenium
- 21.Limitations of Selenium
- 22.Diff between findElement and findElements
- 23.what is an element in Selenium
- 24.what is Test Plan
- 25.what is defect deduction percentage in software testing
- 26.what is software testing
- 27.different types of functional testing
- 28.difference between bug leakage and bug release
- 29.what is default priority in TestNG
- 30.how to run test cases parallely in TestNG
- 31.which Operating Systems are compatible with Selenium
- 32.What is assert and verify
- 33.difference between soft assert and hard assert
- 34.what is priority and severity
- 35.how do you handle broken links in selenium
- 36.how do you navigate to any browser
- 37.different types of exceptions you came across in your testing
- 38.what is arrayList
- 39.what is timeout exception
- 40.what is NoSuchElementException exception

- Q1) Difference among mobile Native, Web and Hybrid apps?
 - Q2) Name the language that is used to write tests in Appium? What all frameworks that are supported by Appium? Appium Limitation?
 - Q3) Difference between Appium and Calabash? Prerequisites to use Appium? How do you setup Appium?
 - Q4) Advantages and disadvantages of Appium?
 - Q5) What is Appium inspector and how it works?
 - Q6) How data exchange function between your test and the App? Explain the design of the Appium?
 - Q7) How can you find the DOM element or X path in case of a mobile application?
 - Q8) Name the types of errors that you can face in Appium?
 - Q9) What are the most difficult scenarios that one might face while testing Appium?
 - Q10) What is an Appium package master? How can you create an Appium Package?
 - Q11) What is the underlying API that Appium follows?
 - Q12) How can you inspect elements that are present in the Native Android App and IOS app?
 - Q13) Write the command that will allow you to identify objects uniquely when there are multiple objects within the same class name using Appium?
 - Q14) Mention the method with which you can scroll down in App?
 - Q15) Give the difference between emulator and simulator? Which approach is the best? Testing on real devices or simulators/emulators?
- 1: Limitations of using Appium?
 - 2: how to find DOM element or xPath in a mobile application
 - 3: what are the possible errors one might encounter using Appium
 - 4: what are the most difficult scenarios to test with Appium?"

Web services Interview question:

- What is Web services
- What is the difference between SOAP and REST
- What is REST API
- What is difference between Web services testing and API Testing
- Difference between XML and HTML
- What is Assertion
- Types of Assertions
- Difference between Xpath and XQuery
- Types of Properties and their syntaxes
- What is Data Driven Testing
- What is Data Source Test step

QA/TESTING INTERVIEW QUESTIONS BY QA IDEA

MOBILE:- +91-8305429370

Explain about JDBC process
How to Connect JDBC to SOAP UI
What is Connection String in JDBC
Difference between SOAP UI FREE v/s SOAP UI PRO
What is Data Sink and Data gen test steps in soapui pro
How to Transfer value using Property Transfer
What is Mock services
How to do Service mocking
What is the process of SOAP UI Testing
What is WSDL
What are the parameters are in WSDL
Explore the WSDL
Is WSDL is necessary for SOAP UI
Difference between HTTP and HTTPS
Why HTTP is important in webservises
What is Endpoint?
What is HTTP method and HTTP Status codes
Explain different types of HTTP methods and Usages
Explain about different Status codes
Types of HTTP Status codes
What is Request Header ? and its format?
What is Response Header ? and Its format?
What are tool are available for SOAP testing
Do u have experience in Load Testing
How to test Load Testing
What is TPS, Response Time and Breakeven point
Absolute vs Relative Xpath?
What is Name Space and its usage
How to write Xpath for access attributes ?
SOAP UI Architecture
How to generate Reports in Free Version

Rest- Assured API Automation Interview Questions for experience.

1. What is difference between API and WebService.
2. What is difference between SOAP & Rest API.
3. Can you write a sample of API(URL) and JSON.
4. How do you handle Authentication token.
5. How many type of Authentication in POSTMAN/ Rest-Assured.

QA/TESTING INTERVIEW QUESTIONS BY QA IDEA
MOBILE:- +91-8305429370

6. What is difference between OAuth1.0 and OAuth2.O ,When and where do you use and how. Can you write a sample code.
7. What is baseURI in RestAssured.
8. Can you explain RequestSpecification request = RestAssured.given();
9. What will be returned type of response.jsonPath().getJsonObject("XYZ");
10. How do you extract the values of JSON and how do you validate response.
11. Can you write a code of save the response in a JSON file.
12. How do you validate headers of response.
13. What is difference between Headers and Header class.
14. What is difference between response.header("xyz") and response.headers() methods.
15. Can you extract all the headers from response at run time.
16. What is JSONObject() , request.header("xyz"), response.path("lable") , response.body().asString() , response.getBody().prettyPrint(); , RestAssured.given().queryParams("xyz","abc");
17. What is difference between request.get("https://dev-mode.com/api/allcustomers") and request.request(Method.GET,"/ allcustomers ");
18. What is difference between PUT and Patch . Have you ever used and where.
19. What are status code(2xx ,3xx ,4xx, 5xx) in API.
20. How do you print your response in JSON format.
21. How do you post body in POST and how many way to post.
22. What all are the dependency for Rest-Assured.

QA/TESTING INTERVIEW QUESTIONS BY QA IDEA

MOBILE:- +91-8305429370

BlueConch technologies interview questions

1) let's call a number reversed if it can be obtained by reversing the order of digits of another number for example 1337 and 7331. Let's define the function of a reverse number $R(1337) = 7331, R(10000) = 1$.

You are given two numbers $X1$ and $X2$ calculate the value of $y = R(R(X1) * R(X2))$.

2) What is the output of the following program

```
public static void main (String [ ] args) {  
    try{  
    } catch(Exception e){  
        System.out.println("Exception block");  
    } catch(IOException ie){  
        System.out.println("IOException block")  
    }  
}
```

a) prints- Exception block

b) prints-IOException block

c) compile time error

d) runtime error

3) in selenium web driver can we take screenshot for headless browser

a) true

b) false

4) how can we remove an object from arraylist

a) remove() method and using iterator

b) delete () method

c) using iterator

d) remove () method

5) select the method which selects the option at the given index

a) Select Byindex()

b) Select Byindexes()

c) Select By index()

d) Select index()

6) select the variation which finds elements based on the driver's underlying css selector engine in web driver selenium

a) By.cssSelection

b) By.cssSelector

c) By.cssSelected

d) By.Selects

7) public static int getSize(){

int temp= super.getSize()

if(temp==0)temp=this.size;

return temp;

a) static methods cannot be refer to this or super

b) static methods Cannot return type "int"

c) there is nothing wrong with this method

8) which method is present in action interface

QA/TESTING INTERVIEW QUESTIONS BY QA IDEA

MOBILE:- +91-8305429370

- a) perform
 - b) moveToElement
 - c) context click
 - d) Click
- 9) which method is used to find an object uniquely on any web page
- a) find element(By locator)
 - b) getTitle ()
 - c) search Elements Byid(Stringid)
 - d) find Elements(By locator)
- 10) which is used for writing selenium 3.0 script
- a) Firefox Driver
 - b) Remote Driver
 - c) Web Driver
 - d) all the above
- 11) pick the correct option from following if you wanted to do a partial on ana attribute on ana elements from the beginning of the Value
- a) ends-with()
 - b) starts-with()
 - c) starts_with()
 - d) contains
- 12) can an interface have members variable
- a) no never
 - b) yes, along as they are public, start and final
- 12) String a="abc";
String b=" abc"
String c= new String ("abc");
if(a==c && a.equals(b)){
System.out.println(" they are equal")
}
else
{
System.out.println(" they are not equal");
}

GeeksForGeeks 1st Technical round : May 17, 2021

1. Introduce yourself
2. Sale -> Large no. of users -> Load testing for application - How can we do it?
3. What is parallel execution and Cross browser testing?
4. What is Security testing?
5. Abstraction vs Polymorphism
6. Web Page -> Registration form -> Write down the Test cases
Registration form -> Full name, Mobile no. , Graduation year
7. Sale -> After 1 week -> Load testing -> Tools (Wver worked)
8. Any experience in manual testing?
9. If you find bug -> what is process?
9. How do you handle concurrent Users?
10. Any experience with AWS, databases
11. Ever worked with Jenkins job configuration setup? Auto-Schedule, Poll SCM.
12. Selenium -> paramerization -> TestNG (How many ways)
13. Logging framework -> Different Levels -> How are you sharing this info to Team?
14. Have you used TestRail (TC mgmt tool)?

=====

GeeksForGeeks 2nd Technical round : May 18, 2021

1. Difference between white box and black box testing?
2. What is authentication and authorization?
3. What is verification and validation?

QA/TESTING INTERVIEW QUESTIONS BY QA IDEA

MOBILE:- +91-8305429370

4. How do you open a browser using Selenium code?
5. close() vs quit()?
6. What is Object repository?
7. How do you handle AJAX call using Selenium WebDriver?
8. Selenium exceptions - StaleElementReference Exception - Element's state change in DOM?
9. Types of locators
10. load testing using selenium
11. CI/CD -> Jenkins -> Job configuration
12. Types of Assertion
13. How do you prioritize the test cases?
14. Navigation methods?
15. Error vs Exception
16. Exception Hierarchy - Checked vs Unchecked Exception?
17. Write test cases for:

```
if width > length
    thenbiggest_dimension = width
    if height > width
        thenbiggest_dimension = height
    end_if
elsebiggest_dimension = length
    if height > length
        thenbiggest_dimension = height
    end_if
end_if
```

MOBILE:- +91-8305429370

#Xebia interview questions

what is a webdriver
What is webdriver in webdriver driver= new FirefoxDriver()
What is the framework you use in your project
What is page factory.init
What is pagefactory in pagefactory.init
What is lazy loading in page factory
Can we change the value of static variable
What is the keyword used to implement an interface
Can we create object of interface?
What is the return type of FindElements()
How do you do string comparison in java

Click [here](#) to join Online Selenium Training.

Xceedance - 1st Technical Round : May 18, 2021

1. Introduce yourself.
2. Ever write data in xlsx file programmatically?
3. What is parametrization? How can we achieve it using TestNG?
4. Why main method is required to start the execution?
5. What is Static and Dynamic binding?
6. Usage of super and this keyword?
7. What is method overloading and overriding?
8. What is Collections in Java?
9. Ever used Hashmap?
10. ArrayList vs LinkedList?
11. What is Object in Java?
12. What is Throwable? Exception hierarchy.
13. What are Checked and Unchecked Exceptions? Examples
14. Try catch block. How many catch blocks with try?
15. What is the scope of default, protected? Is default a keyword?
16. Difference between == and equals()
17. What is interface? Can we have method body inside it?
18. What is implements?
19. Difference between quit() and close()?
20. Different ways to click?
21. Selenium exceptions?
22. What is StaleElementReferenceException? How can you handle it?
23. How can you print all the values present inside dropdown -> countries (India, US)?

Programs

1. What is the output of the program?

QA/TESTING INTERVIEW QUESTIONS BY QA IDEA
MOBILE:- +91-8305429370

```
class Adder{
static int add(int a,int b){
    return a+b;
}
static double add(int a,int b){
    return a+b;
}
}
```

```
class TestOverloading3{
    public static void main(String[] args){
        System.out.println(Adder.add(11,11));
    }
}
```

2. Find out the middle charcater?

String str="Hellojava";

=====

=====

Xceedance - 2nd Technical Round : May 19, 2021

1. Introduce yourself
2. How do you read data from excel sheet?
3. What is Apache POI?
4. What are the tags in testng.xml file?
5. What is Polymorphism?
6. Final vs Finally vs Finalize
7. What if Exception comes in finally block?
8. How do you find the Broekn links in a web page?
9. What is By?
10. Syntax for getting all the links present on web page?
List<WebElement> links = driver.findElements(By.tagName("a"));
11. Static wait vs Implicit Wait
12. Thread.sleep -> Is it given by Java or Selenium?
13. Can we over-ride the static method? Yes/No - Explain.
14. Can we override private method?
15. What is inheritance? Can you define Hierarchical?
16. Java Exceptions - Checked and Unchecked?
17. When does IOException occurs?
18. Why to use TestNG over JUnit? What are the advantages?
19. How do you prioritize -> Can I give the value as -2?
20. Priority (-2, 2, 0) -> Which method will execute first?
21. How can you get all the values from dropdown (Dropdown does not have any select tag)
22. How to find the height and width of the image?
23. XPath vs CSS Selector? Which is better and Why?
24. Go to makemytrip website-> Depaturedate ->

Cuelogic interview

1. Introduce yourself
2. Role and Responsibilities
3. Automation exp
4. Explain web Application architecture with realtime example
5. What will be the High level test cases of opening any web page
6. Test cases for a coffee machine
7. Write a program to print random numbers b/w 200 and 400
8. Consider me as client and discuss what questions you will ask to add a video capability in existing employee web Application
9. Diff B/w absolute path and relative xpath
10. What are sessions and Cookies
11. How will you press enter from keyboard to submit a form in selenium
12. What can be used in place of sendKeys to send value in textbox
13. How will you handle an authentication pop up in selenium
14. How can you use getAttribute in selenium
15. Will the browser open with you will only give google.com in place of complete url
16. What is the diff B/w Post and Put
17. What is encapsulation and where you used it in your automation
18. Write a query to to update emp name to 'Priyanka' for every name that starts with R in employee table
19. Have you designed any Framework from scratch
20. An api returns First 10 best restuarants in pune, How will you very if the resultant list is correct or not in your automation

Zensar Technologies Interview Questions

- 1)Static Java
- 2)can we make class as static in java?
- 3)Can a constructor in java be STATIC?
- 4)How to make class final?
- 5)can we override static method in java?
- 6)CAN FINAL STATIC is ALLOWED in JAVA
- 7)final abstract class in java?
- 8)interface vs abstract class
- 9)interface constructor
- 10)abstract class can have constructor?
- 11)object of abstract class?
- 12)why have constructor in abstract class?
- 13)can abstract class only we have abstract methods?
- 14)use of abstract interface in java?
- 15)abstract class vs interface which is BETTER?
- 16)polymorphism java?
- 17)runtime polymorphism
- 18)method overloading runtime polymorphism
- 19)method overriding and method overloading
- 20)hashmap vs hashtable PR
- 21)limitations of selenium
- 22)types of alerts in selenium webdriver
- 23)synchronization selenium
- 24)webelement methods in selenium
- 25)how to find highlighted text in selenium
- 26)Is it possible to check if a text is highlighted on the page using Selenium
- 27)xpathxs
- 28)helper attributes in testng
- 29)TestNG Annotation Attributes
- 30)postman?
- 31)web services api
- 32)api error codes
- 33)201 error code
- 34)path parameter vs query parameter
- 35)When Should You Use Query Parameters?
- 36)how to know having path parameters
- 37)resource url
- 38)http methods
- 39)update database table in
- 40)agile ceremonies

Delaplex Interview Questions

- 1)Test Script Template
- 2)Entry and exit Criteria
- 3)Requirement Traceability Matrix
- 4)aggregate functions in sql
- 5)What is subquery?
- 6)Which query will execute First?
- 7)collection in postman
- 8)function block in api
- 9)What is api?
- 10)explain local and global variable in api
- 11)400 error response
- 12)200 error response
- 13)201 error response
- 14)api error codes
- 15)What is Put Request?
- 16)What is api request?
- 17)What is api automation testing?
- 18)What is API?
- 19)How to hit a url using selenium?
- 20)Uses of this keyword?
- 21)What is access modifiers?
- 22)Types of modifiers
- 23)Explain private modifiers
- 24)use of interface in java
- 25)Can constructor can be overridden
- 26)What is oops concept?
- 27)Types of OOPS Concept?
- 28)Polymorphism and explain types
- 29)main use of inheritance in java
- 30)Inheritance in Java
- 31)what is object in java
- 32)TestNg Basic annotations
- 33)Handle Common exceptions:
- 34)what is NoSuchElementException
- 35) What is NoSuchWindowException?
- 36)Difference Between GetWindowhandle() And GetWindowHandles()
- 37)How to handle multiple windows in Selenium?

QA/TESTING INTERVIEW QUESTIONS BY QA IDEA

MOBILE:- +91-8305429370

- 38)find elements in selenium
- 39)Methods in Selenium
- 40)Assert and verify in selenium
- 41)Locate Elements by Link Text & Partial Link Text in Selenium Webdriver
- 42)Locators and types
- 43)Use of test Runner in cucumber
- 44)What is cucumber feature file?
- 45)3 main files in cucumber
- 46) Types of files in Cucumber
- 47)Types of framework
- 48)Explain bdd framework
- 49)Data driver vs keyword driver framework vs hybrid framework

Online Selenium Automation Training:-

Start Date: - 5th July 2021

Trainer Name: - SHAMMI JHA

Course Contents:-

Java, Selenium, TestNG, Maven, GIT, Jenkins, BDD Cucumber, Selenium Grid, Page Object Model, HTML, JavaScript, AutoIT, Log4j, Assertion, API Testing, etc.

- ✓ Transposed 3000+ People into Automation across the World.
- ✓ Customized Notes on All Topics.
- ✓ Concept Retention with Funny Example.
- ✓ In Depth Interview Preparation with Dedicated Sessions, Resume Writing Assistance and Much More.

☑ First 4 sessions are free. ☑

- ✓ Duration:- 3 Months
- ✓ Monday to Thursday: - 2 Hours
- ✓ Timing:- 9.30 PM to 11.30 PM IST
- ✓ Fees:- 6000/-
- ✓ Mode of Training: - Online
